# **FLAG RETIREMENT**

The Jonathan D. Rozier Post 164 of the American Legion performs a Flag Retirement Ceremony twice a year at the VFW Hall on George Bush Dr. in Old Town Katy. All citizens are invited to participate and observe the ceremony. Assisting the American Legion in this event are local Cub Scout and Boy Scout troops as well as the local Sea Cadets. Annually, the Post retires about 300 flags. Check the website to find out when the next ceremony is to be scheduled.

<http://www.legionpost164katytx.org/index.html>

In the meantime if you have a flag you would like to retire, please call David and Barbara Rozier, 281-395-0680.

# M.U.D. NOTES

## NEWS FROM THE CORNERSTONE MUNICIPAL UTILITY DISTRICT

- Streets in the Creekstone and Cimarron Subdivision will be closed periodically during the next two years as part of a storm sewer improvement project. **WORK CONTINUES**
- The MUD is partnering with Harris County to construct sidewalks along South Mason Road from Highland Knolls to the Fort Bend County Line. Project is moving ahead
- Contruction has started on widening South Mason Road. There will be traffic problems for the next few months.
- Recent county proposal to make neighborhoods pay all of the cost for constable deputies instead of the current 70%. Proposal was withdrawn after citizens comments to commissioners.

### RESIDENT'S RECIPE

#### SUPER EASY TACO ROLL

1 lb. Ground lean beef or turkey

1 pack of taco seasoning

1 can Rotel

2 cans of crescent rolls

Lots of Shredded cheese

Lettuce

Sour cream

Avocado

Tomato

For the amounts of sour cream, lettuce, tomato, and avocado, you will have to use your own judgment.

#### DIRECTIONS:

Brown your ground beef until it is no longer pink. Drain grease off. Add taco seasoning and Rotel. Add water as directed on the Taco seasoning. While that is simmering, place crescent rolls in a circle on a (lightly sprayed) pizza pan. In a circle with points out, use extra rolls to fill in where needed on the bot-

## *President's Letter*

We also have several events planned for the next two months.

- ⇒ Fire Ant Week Starting April 12
- ⇒ Spring Garage Sale on April 20
- ⇒ Pool opening Saturday May 4
- ⇒ Memorial Day Picnic May 27

We are still looking for someone to coordinate the activities on Memorial Day. The association typically provides Soft Drinks, water Hotdogs and cookies. Residents are encouraged to bring their favorite passing dish. We have a budget for activities but need someone to decide what to do and how to put it all together. If you can help. Contact me 281-734-9261 to learn more..

If you still have not paid your assessment for 2023, you are subject to additional costs for penalty and interest. If you are having financial problems, call John Irwin. We need every homeowner to contribute in order to meet our operating budget and perform the community services you require. We are willing to work with you to minimize the impact on your finances. Don't wait. The sooner you call, the less it will cost you.

There are supposed to be more storms that usual this year. NOAA Is predicting a more active hurricane season. Now is the time to look at your house and yard to decide what you would need to do to prepare for a severe storm. Where do you store things in the yard that might blow away? How would you protect windows? Do your trees need to be trimmed so they won't fall on the house? Are the storm drains in front of your house open and free of debris? Make a list now so you don't miss any of these or other tasks when the storm comes.

### **Cornerstone Security Report**

Removing valuables from vehicles and front yards and securing houses and cars provides the best protection for your property. Remember to stop behind a school bus when its red lights are flashing. If you are going the opposite direction, you must stop in front of the bus unless there is a raised median between you and the bus.

All streets in Cornerstone place require parallel parking only. Your vehicle must face with traffic and be within 18 inches of a curb or road edge. No notable incident in Cornerstone Place this month.

**The Home Advantage**  
by David and Barbara Rozier

**Choosing Between  
Annuals  
and Perennials**

When beautifying your yard, one key decision is whether to opt for annual or perennial plants. Each type offers its own benefits and considerations, making the choice important for any homeowner with a garden.

**Annuals**

Annual plants complete their life cycle within a single growing season. They typically sprout, flower, seed and die off all in the span of one year. While this might seem like a short lifespan, annuals often boast vibrant blooms and a continuous display of color throughout the season. They're perfect for adding instant charm to your garden beds or containers and offer the flexibility to change your landscape design annually.

**Perennials**

Perennial plants are the long-term players in your garden. Once established, perennials return year after year, bringing a sense of permanence and reliability. While they may have shorter bloom periods than some annuals, perennials often have a more extensive root system, making them more drought-tolerant and requiring less maintenance. Additionally, perennials come in a variety of textures and foliage colors that

can enhance the overall aesthetic of your yard, even when not in bloom.

Ultimately, deciding between annual and perennial plants depends on your gardening goals, time investment and aesthetic preferences. Consider mixing both types in your landscape for a balance of color and enduring beauty, ensuring a vibrant and diverse yard for seasons to come.

**How to Clean  
a Sink Trap**

Maintaining a clean and clog-free sink trap is essential for the smooth operation of your kitchen or bathroom sink. Over time, debris, grease and food particles accumulate in the trap, leading to unpleasant odors and potential blockages. Here's a step-by-step guide to help you keep your sink trap clean and functioning efficiently.

**1 Gather supplies:** You'll need a bucket, a pair of rubber gloves, a pipe wrench or pliers, an old toothbrush and some mild dish soap.

**2 Prepare the area:** Place the bucket beneath the sink to catch any water or debris that may spill out during the cleaning process.

**3 Remove the trap:** Using the pipe wrench or pliers, carefully loosen the slip nuts that connect the trap to the drainpipe. Once loosened, carefully remove the trap and place it in the bucket.

**4 Clean the trap:** Use the old toothbrush and mild dish soap to scrub away any buildup and debris from the trap. Pay special attention to any hard-to-reach areas or stubborn residue.

**5 Inspect for damage:** While cleaning, take the opportunity to inspect the trap for any signs of damage or wear. Replace any cracked or worn components to prevent future leaks or issues.

**6 Reassemble and test:** Once the trap is clean, reassemble it and tighten the slip nuts securely. Run water through the sink to check for any leaks or drainage issues.
